PRESCHOOL

A Dual Immersion Program: Age 2+ to 6

Our European-Style Immersion Preschool, Pre-K and Kindergarten is a complete Multi-lingual program. We follow a format similar to any other English preschool, with the same routines and activities and with a heavy emphasis on the language building activities (song, rhyme, repetition, dance and movement). No need to worry that your child may get confused over time, they won't! Our immersion approach means that every moment in the classroom is also considered for its language-learning opportunities.

You can choose to register your child in any combination of language in our preschool. From social development to pre-reading and writing, your child will be ready for elementary school in any of the languages they are exposed to with us, including their native

AFTER SCHOOL (Kindergarten & Grade school age)

Kindergarten

Kindergarten is a great time to secure language skills. Children are still learning naturally and acquire language much easier than at a later age. These classes are designed for our young students who are still learning how to read and write in English. Parents support is needed to do homework (no parent's language skills required).

Beginners: Grade school age with no previous background.

This level is designed for both students who want to "try out" a foreign language class and for those who may be serious about becoming fluent and literate. This level is part of our immersion program so the class is taught 100% in the target language. It also follows a curriculum that is articulated with our Bridges and Literacy level. Student will have the strong language listening comprehension skills necessary to excel in the next level.

Bridges 2 to 5: Grade School with 2 or more year of language. Conversations and dialogs are extended through role-play, skits and class routines. Workbooks are used to develop literacy and practice homework is given weekly.

These classes follow the natural process of language acquisition. Strong conversation skills and deeper understanding of the language will be developed as literacy will be gently introduced in preparation to our literacy levels. Children might be tested to enter our bridges classes.

Literacy: Grade school and middle school with prior experience . These classes are designed for the students who went through our bridges levels or have similar experience in the language. In these more advanced levels, conversation skills continue to improve while literacy is being developed. Homework will be given. The levels of literacy cover the grammar and writing equivalent to the first 2 years of high school. Students might be tested to enter our Literacy classes.
